

30 JUL 1965

MEMORANDUM FOR: Deputy Director for Support
SUBJECT : Office of Security Annual Report
for Fiscal Year 1965

1. This memorandum is for information only.
2. Attached as Tab A is a report of the noteworthy accomplishments and activities of the Office of Security for Fiscal Year 1965. Set forth under Tab B is a statement of the major objectives of this Office for Fiscal Years 1966 and 1967.
3. As a supplement to Tab A we have reported certain pertinent statistics under Tab C relating to the activities of the Office during Fiscal Year 1965.

SIGNED

Howard J. Osborn
Director of Security

Attachments:
As Stated

Noteworthy Accomplishments and Activities of the Office of Security
During Fiscal Year 1965

1. Submitted to the Special Assistant to the President for National Security Affairs the semi-annual report relating to actions taken by the intelligence community to maintain and improve the Nation's counterintelligence, personnel, and physical security posture at overseas installations. The report will hereafter be prepared on an annual basis with the next report due in January 1966.

25X1

25X1

3. Reviewed for the Chairman, USIB, several recommendations of the President's Foreign Intelligence Advisory Board in connection with the [redacted] Certain proposed actions were approved by the Special Assistant to the President for National Security and PFIAB and were submitted to the Security Committee for implementation. The following have been implemented: the establishment of a uniform glossary of terms as applicable in personnel security matters concerning homosexuality and perversion; and procedures for exchanging pertinent security cases for use in security indoctrinations.

4. Developed an Office of Security Plan, which gives security policies, tasks, procedures and concept of operations, for supporting CIA during tactical situations. A Tactical Task Force Security Officer was designated to ensure a security readiness.

5. Revised the (1962) Office of Security War and Contingency Support Planning Guide and furnished copies to both Headquarters components and major overseas stations and bases. It gives security concepts, policies, guiding principles and tasks which will guide preparatory Security Planning for Tactical/Contingency Crisis and General War.

6. Reviewed DDP and other Agency Components Contingency and War Plans and Programs to determine their adequacy, feasibility, and suitability from a security standpoint. The more important plans were: CIA Theater Plans, Area Plans and many country plans for Europe, Near East, Pacific, Western Hemisphere, Atlantic, etc.

25X1

9. Conducted an Office of Security survey involving the functions and responsibilities of each office and staff. Implemented the recommendations contained in the survey report.

10. Completed approximately 175 forms management actions, implemented more than 50 records equipment controls and released in the Records Center 638 cubic feet of space.

11. Completed, approved and implemented for half of the Office of Security components new or revised records control schedules in the Records Disposition Phase.

12. Completed Security Reindoctrination Program No. 2 for all Headquarters personnel and incorporated the program into the CIA Review Briefing for the benefit of overseas returnees.

25X1

14. Received a total of twenty-five suggestions from OS personnel during FY 1965. Sixteen of the suggestions were considered eligible and three were adopted for an adoption rate of 18.8%. Cash awards amounted to \$320.00 and savings realized from the adopted suggestions totaled \$7,000.00.

15. Prepared the SRS digest and "Special Studies" on regular basis for distribution throughout the professional staff, OS and other areas within the Agency.

16. Continued debriefings under Recovery Program with exceptional results by developing several heretofore unidentified [redacted] including 25X1 identification of numerous persons of interest to OS who were involved with [redacted] activity in the past.

17. Provided counterintelligence lectures on a continuing basis to the Defense Intelligence School and various Agency divisions.

18. Increased special coverage in the public media field and supplemented personnel security summaries regarding personalities in this field to the Assistant Director to the DCI.

19. Established for operating component a close liaison channel

25X1

20. Instituted a procedure to give greater protection to the identity

25X1

21. Adopted centralized control systems in the Investigations Division so that desk supervisors are relieved of the necessity for maintaining individual controls, enabling them to devote more time to case supervision.

22. Eliminated the need for typing biographic mats in view of the new PHS because a page of the PHS containing necessary information for NAC's is filled in by the person involved and is reproducible through the Xerox process.

23. A terminal digit filing system installed in the Open Branch/ID has eliminated the need for continually shifting files and has reduced filing errors involving over 4,000 files maintained by the Branch.

25X1

24. In cooperation with OSA, a provisional access approval procedure was established which permitted the completion of NAC's and field investigations on industrial personnel whose use in sensitive projects [redacted] was anticipated by OSA. The establishment of a "cleared cadre" in advance of the actual date of utilization has helped to stabilize the flow of cases to the field.

25. Completed revision of administrative procedures whereby a new system of record keeping was instituted for handling cover arrangements with the Department of Defense. New system involved discarding of all obsolete material in files and installation of a tighter control of records which will reduce to a minimum, possible errors in handling cover arrangements of individuals concerned.

26. Advised and assisted Field Offices in extensive study of potential additional secondary cover mechanisms for use in field investigations. One such mechanism is already established [redacted]

25X1

25X1

28. Completed a program for increasing the capability of field office personnel in use of firearms by establishment of definite training procedures and by issuing such additional equipment, as necessary, to each field office.

25X1

29. Rendered extensive support to the Saigon bombing patients upon their arrival in the United States.

25X1

31. Set up a cryptographically secure communications test system between Headquarters and [redacted]. This is the forerunner to a complete cryptographic communications link between all field offices and Headquarters.

32. Established and staffed two new Resident Agencies in strategic locations for greater efficiency and economy of operations.

25X1

34. Revised as an automated system the security file retirement program. To accomplish this, [redacted] retired security files were inventoried, the date and place of birth of each subject was added to the system for quick identification purposes. The repacking of files resulted in the regaining of 636 linear feet of file space at the Records Center.

25X1

35. Coordinated with the Office of Training in selecting Office of Security personnel for casting in a security film on audio countermeasure defensive techniques. Provided support and guidance in connection with the filming.

25X1

37. Completed a two-week Technical Security Audio Countermeasures Familiarization Course which included representatives from the Army, Air Force, Navy and the Internal Revenue Service.

38. Conducted technical inspections prior to and during hearings before 23 Congressional Committees and several meetings of the President's Board of Foreign Consultants [redacted]

25X1

39. Provided Agency representation to the USIB Audio Countermeasures Subcommittee and served as an observer to the USIB Countermeasures Research and Development Subcommittee. Represented the Agency on matters related to the technical security of business machines on the USCISB Special Committee on Compromising Emanations and its Technical Subcommittee.

25X1

41. Provided briefings to State Department investigators, selected case officers of WH Division, senior officials of NSA on the polygraph. In addition, the Assistant Counselor for the Sub-Committee of the House Government Operations was briefed on the polygraph research program.

25X1

42. Forwarded to [redacted] the first collection of data for stress totaling eight tapes. Each tape averaged 90 polygraph tests.

43. Assisted in a feasibility study of muscle action potential as a possible stress parameter being studied by [redacted] under the direction of DD/S&T.

25X1

44. Conducted briefings for outgoing chiefs of stations or other senior personnel on possible personnel security problems.

45. Participated with the Policy and Planning Staff and others on the security aspects of the transfer of funds from the Civil Service Commission to this Agency under the CIA Retirement Program.

46. Established a Denied Area Realities Briefing Program in coordination with the Contact Division and the DDI Collection Guidance Staff. This Program is in conjunction with the Positive Intelligence Collection Program and has resulted in an increase of qualitative positive intelligence along with an increase in personnel security.

25X1

47. Conducted a complete security survey of the residence of the offices of [redacted] at his request. Recommendations were made to improve the overall security of his files as well as his own personnel security.

48. Conducted a study and prepared a report concerning the handling of Restricted Data material by the Agency including all aspects of procedural control as well as clearances for personnel involved and storage facilities used.

25X1

50. Reduced cost of guard overtime during FY 1965 from 50,985 overtime hours to 27,917 overtime hours for a net cost reduction of \$46,136.00.

25X1

52. Conducted a special study in conjunction with the Department of State and various other Government agencies on the countering of terrorist activities directed at U. S. installations and personnel throughout the world.

25X1

54. Conducted approximately 300 surveys for the purpose of insuring adherence to proper security controls in the installation of red line telephones.

55. Utilized Special Agent personnel to support and assist the Office of Training in physical surveillance exercises on 31 different occasions. These exercises involved the training of both staff employees and covert agent personnel.

56. Conducted a study of the special system courier services in connection with establishing a [redacted] courier system throughout the [redacted]

25X1
25X1

57. Adopted a new format in the Special Clearance Center for use in monthly reports on special clearance totals. This format permits the use of IBM print-outs as a report on significant shifts or changes in numbers of the special clearances without the necessity of preparing an abstract.

58. Reviewed plans, procedures and provided physical, personnel and document control security guidance in the establishment of [redacted] centers and sub-centers in the intelligence community.

25X1

59. Initiated and conducted the briefings of security officers selected for overseas assignment on the requirements for surveys of CIA compartmented security centers within their overseas jurisdiction.

25X1 60. Established security guides and procedures for the storage and retrieval of compartmented information at the Vital Records Center.

25X1 61. Prepared for DIA specific security policy guidance setting forth instructions on the assignment to Viet Nam of military personnel involved in codeword clearances.

25X1 62. Furnished professional OS employees to the U. S. Secret Service on a TDY basis in support of the security aspects of President Johnson's inauguration. A Headquarters command post consisting of senior Headquarters personnel was manned during the inauguration.

25X1 64. Prepared OS contributions to the Annual Bureau of the Budget report on ADP funds, personnel and equipment. The overall report is prepared by the Office of Computer Services.

65. Installed devices to IRD equipment in cooperation with DD/S&T for the purpose of collecting data relating to human stress for further analysis.

66. Furnished a representative full time to the DDS Support Information Requirements Group to participate in a Systems Analysis for the development of an integrated management information processing system.

67. Furnished the chairman for a DDS Committee that established special security compartmentation requirements in the computer center and in the handling of automatic data processing.

68. Completed more than half of the conversion of the SRD master security index to machine language which is expected to be tested in late 1965.

25X1

Approved For Release 2002/06/18 : CIA-RDP83B00823R000400110012-9

Approved For Release 2002/06/18 : CIA-RDP83B00823R000400110012-9

Major Objectives of the Office of Security for
Fiscal Year 1966

1. Under conditions of expanding workload and proliferation of security responsibilities continue to exert every effort to render the optimum in security support through the use of presently available manpower assets.
2. Promote the exchange of pertinent security and counterintelligence information among the departments and agencies. In this regard, special security studies covering particular areas of concern are being prepared.
3. Promote effective and sound community security policy in accordance with established authority. Further, to ensure that such policy is being implemented effectively and in accordance with prescribed policy.
4. Establish uniform personnel security procedures, through the issuance of a DCID, for access to sensitive compartmented information.
5. Maintain a continual awareness and establish effective procedures both within CIA and the intelligence community for prompt investigative and other action to protect intelligence from unauthorized disclosure. Promote a high degree of security consciousness of intelligence personnel to the problem.
6. Promote and assist in the development of effective training and indoctrination programs to identify the nature and extent of the hostile threat.
7. Identify more definitely the significant security problems, tasks and guidelines which are germane to Agency Tactical/Contingency Crisis, and based on these findings develop security policies, tasks and guidelines (including checklists) for use in preparatory planning and for implementation during crisis.

8. Test emergency security policies, tasks and procedures during Agency peacetime Field and Command Post Exercises.

9. Review, from a Security standpoint, CIA Tactical/Contingency and War Plans which are written, and work with Agency elements concerned in making more definitive in-being plans for implementing such plans.

10. Continue coordination with and furnishing Security guidance to Agency components for use in development of their emergency plans.

11. Continue conversion of the Security Index to machine language and to start Security name searching by computer. Improve five on-going ADP projects.

12. Develop systems for covert case processing control and analysis and security credential issuances. Conduct feasibility study on ADP applications in the Interrogation Research Division and the Security Research Staff. Continue research and development of the polygraph computer study of stress.

13. Continue exploitation of and development of new sources of information pertaining to historical and current counterintelligence targets as well as targets of security concern.

14. Become oriented in [redacted] intelligence activities insofar as they may represent counterintelligence targets; to initiate development of appropriate sources of information in this regard.

25X1

15. Promote practices and procedures to insure timely exchange of pertinent Security and Counterintelligence information both within CIA and the intelligence community with emphasis on overseas activities.

16. Revise and clarify the categories of non-staff and contractor personnel.

17. Refine and systematize the various elements of the Denied Area Realities Briefing Program.

18. Standardize the numbering system both at Headquarters and overseas with regard to interrogation reports so as to assist Headquarters in processing cases in line with the machine indexing system.

19.

25X1

25X1 20. Adapt the [redacted] system installed in IRD to give "on-line" print out of polygraph charts as they are being obtained in a live interview. This will afford optimum control of student examiners and afford a most advanced training technique. Hopefully to install a covert communication link to the student examiner so that the entire live interview can be controlled by an instructor at a remote location.

21. Begin collecting data for voice frequency analysis during fiscal year 1966. During this time, IRD will determine the feasibility of this possible stress indicator.

25X1

[redacted]

23. Determine the validity/reliability of the present polygraph instrumentation and technique through computer analysis of physiological data obtained through interviews.

24. Undertake two security survey trips each to Africa, Latin America and the NE Area which will include approximately 50% of the installations in each of these areas.

25X1

[redacted]

27. Complete research and development, in conjunction with TSD, on a glass or glass substitute to preclude injury by glass fragments resulting from violence directed at Agency installations overseas.

28. Under the existing programs with TSD, develop and test prototype devices to detect surreptitious entry into or substitution of Agency pouches as well as entry into safes, rooms and areas.

29. Establish a more positive system of personnel identification and access control in Headquarters Building.

25X1

33. Test and evaluate the first production line models of the unified Audio Countermeasures Kit to ensure that they meet technical security requirements,

34. Continue to place requirements on TSD and DDS&T for the development of nullification and isolation techniques and devices, audio detection equipment, and such other technical security equipment as may be required.

35. Provide a limited briefing on the threat of hostile audio surveillance for adult dependents of employees being transferred overseas.

25X1

25X1

37. Conduct audio countermeasures inspections of overseas installations at least once a year and, where possible, once every six months, and provide [redacted] support as required.

25X1

38. Realign field office territorial jurisdictions; create additional resident agencies and shift managerial functions to areas where the work-

39. Establish additional secondary cover mechanisms in each of the field office areas of responsibility.

40. Conduct a feasibility study for the elimination of current case methods with a view towards utilization of ADP and computer facilities.

41. Conduct a study of the implications of the centralization of DOD index and the possibility of direct access thereto for [redacted] purposes. 25X1

42. Initiate a thorough study of Agency instructions and practices regarding covert clearances and operational approvals, with a view toward promulgating an appropriate Headquarters Regulation covering this subject.

43. Continue to improve the positive audio capability of the Office of Security by the acquisition of new and improved equipment, by more intensive training of personnel and by the centralization of this effort in one field office in the Headquarters area.

44. Develop and improve the assets of [redacted] to enable it to furnish increased support in the field of industrial security personnel investigations. 25X1

25X1 45. Increase the use of [redacted] investigators when necessary and suitable in custody cases, surveillances, and related operational support requirements.

46. Develop the security survey capabilities [redacted] to support expected expansion of such requirements in the industrial security field. 25X1

25X1

51. Continue the exploration of the possibility of establishing an electronic link with other Government Agencies for the expeditious conduct of National Agency Checks.

52. Reduce the backlog of 3,324 untyped reports in the field offices by the implementation of a revised method of reporting in certain categories of cases.

53. Complete a cryptographic communications network between Headquarters and [redacted] field offices.

25X1

54. Continue to emphasize file retirements in order to accommodate space requirements.

55. Establish an Industrial Security Division within the Office of Security. Standardize the policies, procedures, inspections and support as they relate to industrial establishments and CIA. Conduct surveys into the present industrial security program.

56. Continue providing personnel, budget and fiscal, logistical, and training support and special services for all elements of the Office of Security at Headquarters [redacted] and foreign field.

25X1

57. Continue updating the material presented in various briefings under the Security Education Program.

58. Provide support of the OS Career Service Board in reviewing the files of all SS Careerists who are over twenty-five years of age and must be considered as possible participants under the newly established CIA Retirement and Disability System.

59. Explore the possible uses of ADP, in coordination with the OS Records Management Officer, for the purpose of programming personnel data into the ADP system and, thus, provide better and more prompt service for the Career Service Board and the Director of Security.

25X1

25X1

61. Implement the agreement with I&NS to permit the Agency to obtain first preference status after one year's training for certain

[redacted]

62. Study the advisability of consolidating security access approvals.

25X1

63. Publish the updated [redacted] Manual and the revised [redacted] Manual.

25X1

64. Study the advisability of integrating compartmented security records with the overall records of the Office of Security.

Major Objectives of the Office of Security for
Fiscal Year 1967

Many of the objectives listed for Fiscal Year 1966 will continue through Fiscal Year 1967. It is anticipated the following objectives will be initiated for Fiscal Year 1967:

1. Complete the application study of ADP of Security Research Staff and Interrogation Research Division.

25X1

2. Develop sources of information in the area of [redacted] activities for use in development of counterintelligence targets.

3. Undertake two security survey trips each to Africa, Latin America and the NE Area which will include approximately 50% of the installations in each of these areas.

25X1

5. Undertake a special study on the Agency Courier System in the Headquarters area.

6. Install pilot model of the Personnel Identification and Control device (Badge Machine) at a selected barrier within the Headquarters Building.

7. Complete the automation of all records concerning identification badges, credentials and identification cards.

8. Increase the investigative coverage on industrial security cases.

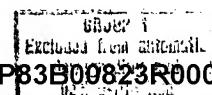

9. Procure items of audio countermeasures interest for evaluation of their usefulness and applicability.

10. Implement new procedures based on the results of studies in FY 1966 concerning participation in a centralized DOD index.

25X1

11. Establish a new field office [redacted]

[redacted] depending on the workload demands at the time.

25X1

[Redacted]

13. Continue consideration to the feasibility of consolidating field offices in areas where there is joint jurisdiction, taking into account cover problems and operational needs.

14. Conduct a thorough counterintelligence study as it applies to industrial plants where CIA classified contracts are handled.

15. Present Security Reindoctrination Program No. 3 to all Headquarters personnel.

25X1

[Redacted]

17. Conduct surveys of [Redacted] storage and work areas. 25X1

18. Provide the Intelligence Community with [Redacted] directives and results of studies to insure security protection of new projects brought into the special security system. 25X1

Next 3 Page(s) In Document Exempt

NOTEWORTHY ACCOMPLISHMENTS AND ACTIVITIES OF THE
EXECUTIVE STAFF DURING FISCAL YEAR 1964

25X1 1. The Office of Security chaired a CIA Task Force which prepared a damage assessment concerning the CIA information and sources and methods

25X1 2. Prepared comments by the Director of Central Intelligence concerning recommendations of the President's Foreign Intelligence Advisory Board resulting from its review of the ramifications of the espionage activities [redacted] Implementing action by the Security Committee of USIB to improve personnel security standards within the intelligence community has been initiated.

25X1 3. At the request of the USIB, the Security Committee of USIB conducted a preliminary assessment of the damage to intelligence information, sources, and activities resulting from the [redacted]

25X1

[redacted] The Office of Security served as the focal point for the community in this undertaking and compiled, correlated and prepared the report for USIB.

25X1 4. Completed a study of the security system [redacted] to identify its good and bad qualities. Such paper is to be used in policy planning matters.

25X1

5. Computer programs and training manuals for the conversion of the Office of Security central index to machine language have been completed and the actual conversion project is underway.

6. Assisted in the revision of the basic policy paper for the operation of the United States Military Information Control Committee. This paper now includes as a general principle that the DCI is responsible for the protection of intelligence sources and methods from unauthorized disclosure.

SECRET

25X1

7. Recommended certain revisions of the basic security paper under which [redacted] security operates.

8. Prepared a paper establishing industrial security policies for operation of certain Agency projects.

9. In order to assist the National Security Agency in the revision of its personnel security program, provided a synopsis of CIA regulations, notices and lectures relating to personnel security and supervisory responsibilities.

10. Forwarded a damage assessment report to the Executive Director-

25X1

11. Prepared for the Chairman, USIB, the semiannual report to the President's Foreign Intelligence Advisory Board on actions taken during the period January through June 1964 to maintain and improve the nation's counter-intelligence, personnel and physical security posture at overseas installations. This report contained individual contributions by all members of the intelligence community.

12. The Office of Security, acting as a focal point, directed an investigation of a possible unauthorized disclosure utilizing the investigative capabilities of most of the USIB member agencies.

13. Numerous reported possible unauthorized disclosures were reviewed and analyzed in coordination with Agency components concerned, regarding damage to sources and methods. Agency action was taken, as appropriate, including reports to the DCI.

14. Arranged with OSI/USAF headquarters for planning and carrying out of security support matters of mutual concern for contingency and wartime situations.

15. Established an Office of Security Team, representing each staff

SECRET

25X1

and division, in connection with [redacted] The Team followed the exercise and took "simulated" action in support of CIA participation. This permitted OS to determine its strengths and weaknesses of emergency plans to support both overseas and Headquarters requirements. Following the exercise, necessary action was taken, insofar as practicable, to correct recognized deficiencies.

16. Provided security guidance and support to War Plans Staff and other Agency elements in support of [redacted]

25X1

25X1 [redacted] This permitted OS to go further in determining necessary security requirements in supporting CIA during joint CIA/DOD war games.

17. Reviewed with War Plans Staff and the Deputy Senior War Planner [redacted] policies, guidelines, and procedures for contingency and 25X1 wartime planning [redacted]

18. Provided security guidelines to War Plans Staff in the development of a policy paper which outlined a charter for CIA Force Wartime Commanders.

19. Developed a redeployment and evacuation planning guide which was furnished Security Officers assigned PCS overseas.

20. Submitted for the consideration of the DDCI a recommendation that Headquarters responsibility for overseas evacuation be centralized at one point (War Plans Staff, DDP) and that coordination with DDS elements be handled through the SSA/DDS.

21. Submitted to War Plans Staff a typical Security Annex for a CIA Theater War Plan as a guide for Senior War Planners.

22. Seventeen professional employees of the Office of Security were given training at the [redacted] covering such matters as the functions of data processing, stored program concepts and specific electronic data processing systems. In addition, Automatic Data Processing orientations were given to 152 clerical employees of the Office of Security, covering such phases as automation principles, ADP in CIA, and document and information retrieval.

SECRET

~~SECRET~~

25X1 23. Served as a member of the United States Military Information Control Committee for the purpose of surveying the security capability of the

24. Prepared a cost analysis indicating the component security cost factors for Fiscal Year 1963 for investigation, appraisal, polygraph and badging of persons to be employed or used by CIA.

25. The Building Security Branch was furnished with 20,000 different random safe combinations by means of the computer, thereby providing greater security than having employees select their own numbers.

26. A clearance register in the Office of Security was reorganized through use of computers so that clearances by separate organizations, groups of people, etc., could be provided rapidly for operational purposes.

27. Inactive security files continue to be transferred from expensive Headquarters office space to the more economical Records Center for storage. Last year 549 cubic feet of inactive records from six divisions and staffs were thus relocated (emptying more than 10 safes and 20 shelf file units) saving \$3,189 per year in storage costs besides gaining valuable office and filing space. A total of 2,088 cubic feet of security files are now in the Records Center.

28. All components in the Office of Security completed the re-evaluation, revision, and updating of their vital records deposit at the Agency Relocation Site. Some 400,000 items of irreplaceable files and index cards were put onto 100 reels of microfilm for safe storage. Schedules were completed for the periodic updating of these vital records on a routine basis.

29. Rendered security advice and guidance to the Honor and Merit Awards Board in connection with the processing of 101 cases.

30. Furnished security representation to the Board of Review of Shortages and Losses. During the fiscal year a total of 21 cases were adjudicated.

SECRET

OBJECTIVES - FY 1965

25X1 1. To continue to direct the CIA Task Force monitoring the possible effect of the [redacted] compromise upon CIA classified information and sources and methods, and to effect prompt corrective action and recommendations to the DCI as appropriate.

25X1 2. To prepare a final intelligence assessment of the damage resulting from [redacted]

3. To develop for consideration by the Security Committee, USIB, means and methods to improve the security systems used within the intelligence community.

4. To complete revision of the Office of Security War and Contingency Support Planning Guide for use by Senior War Planners as a ready security reference and guideline on contingency and wartime planning.

5. To provide guidance and assistance to War Plans Staff and Area Divisions in the development of security plans in support of overseas contingency, emergency and wartime situations.

6. To hold one or more alerts of the Security patrol to determine its activation effectiveness and to correct any deficiencies determined.

7. Prepare and forward to [redacted] security officers sanitized summaries of interesting cases which could be used in briefing personnel regarding the dangers and hazards of personnel indiscretions, misconduct and the possibility of harassment and blackmail by hostile opposition intelligence services and for use in performing investigative and other security functions. 25X1

8. Continue to promote practices and procedures to ensure the timely exchange of pertinent security and counterintelligence information, both within CIA and the community, for the protection of personnel and installations with emphasis upon overseas activities.

SECRET

9. Continue to investigate promptly possible unauthorized disclosures, make analysis of damage caused thereby, attempt to identify the source of the "leak," recommend corrective action and continue to promote an awareness among Agency personnel regarding the seriousness of such matters.

10. For Fiscal Year 1965, the ADP Program for the Office of Security, besides the conversion of the SRD Index, envisions new areas such as the establishment of a standard case processing control system on all cases, the expansion of ADP in administrative procedures which lend themselves to automation, and the exploration of the use of an electronic link with other government agencies for investigative and name check purposes.
